Core competencies

PearlWind LLC is a general contractor specializing in the following sectors of reducing an agency's energy usage and leading it to sustainable operations

- Complete **lighting analysis** and coordination with local utilities to maximize benefit from offered **utility incentives**.
- Our **licensed and bonded** installers with OSHA approved training.
- **Turnkey installation** of LED and induction lighting systems for exterior, interior, occupational and manufacturing facilities.
- Engineering and design of **solar photovoltaic (PV)** arrays for both roof and ground mounted locations.

Differentiations

PearlWind is a distributor and contractor for both standard and specialized applications of LED and induction lighting products for government agencies. PearlWind features wholesale pricing from manufacturers for its products, and a staff of professional installers and contactors with the experience and safety training to execute your agency's installation with minimum interruption of operations.
